

## **Sense2 Environmental Policy, Guidelines and Reviews**

At Sense2, we are dedicated to achieving continual environmental improvement through the diligent implementation of a comprehensive management system that is guided by clear objectives and targets. Our commitment extends to minimizing our environmental footprint, working collaboratively with our staff and stakeholders, and adhering to pollution prevention practices while staying in full compliance with all relevant legal and other requirements. We aspire to set an example for others in our industry to follow.

### **Our Environmental Achievements**

1. **Renewable Energy:** Sense2 is proud to announce that all the energy consumed in our operations is derived from clean, sustainable solar power sources.
2. **Water Stewardship:** We actively engage in water conservation efforts by recycling water within our facilities and collecting rainwater for various uses.
3. **Material Recycling:** We prioritize material recycling wherever possible within our offices to reduce waste and promote sustainability.
4. **Responsible Supplier Selection:** Sense2 is committed to choosing suppliers that align with our environmental values. Whenever possible, we partner with suppliers who source materials such as wood and bamboo from renewable and sustainable sources.
5. **Customer Education:** In addition to our internal efforts, Sense2 takes the initiative to educate our customers about making environmentally responsible choices.

### **Legal and Other Requirements**

To uphold our environmental commitment, Sense2 recognizes the importance of complying with various legal and regulatory requirements. The following list highlights some of the key Commonwealth and State legislation, policies, and guidelines that pertain to our operations:

#### **Commonwealth Legislation**

- **Environment Protection (Impact of Proposals) Act 1974:** This act mandates the thorough examination of significant environmental matters in all actions, proposals, and decisions involving the Commonwealth Government and its agencies.
- **National Environment Protection Council Act 1994:** This act establishes the National Environment Protection Council (NEPC), responsible for creating national environment protection measures to safeguard Australians from air, water, soil, and noise pollution.
- **Motor Vehicles Standards Act 1989:** This act sets emission standards for exhaust fumes on road vehicles and their components.

## **National Policies**

- **National Packaging Covenant:** Sense2 supports this voluntary initiative aimed at reducing the environmental impact of packaging. We commit to minimizing the environmental effects of used packaging disposal, conserving resources through improved design and production processes, and promoting the reuse and recycling of packaging materials.

## **State Legislation (NSW)**

- **Coastal Protection and Management Act 1995**
- **Dangerous Goods Safety Management Act 2001 and Regulation 2001**
- **Environmental Protection Act 1994**
- **Environmental Protection (Water) Policy 1997**
- **Environmental Protection (Waste Management) Regulation 2000**
- **Environmental Protection (Air) Policy 1997**
- **Integrated Planning Act 1997**
- **Land Act 1994**
- **Radiation Safety Act 1999**
- **Queensland Heritage Act 1992 and Regulation 2003**

### **Environmental Management System**

Our organization follows a well-defined process for identifying and addressing environmental nonconformities. This includes recording suggestions for environmental management improvement, taking corrective actions to rectify nonconformities, and mitigating environmental impact. We are committed to preventing recurrence and continuously enhancing our environmental performance.
